	Lucas Moura	Tottenham Hotspur	10 2				

Advances in technology over the past 10 years have made watching and refereeing sports an entirely different experience. Instant replay and shot positioning have brought on a new meaning of precision to professional sports. With more observation comes more statistics. But how will we process this information? It's easy to get lost in the maze that ESPN shows you, but with FDV, this lengthy list is clearly visualized.

We use an API to source our data. Below is a visual representation of the API's software architecture. We pull the data right from this resource with every use of our program. We keep our stats fresh to get you in the game!

- 12 competitions
- Live match scores
- Individual player history
